

e-medic™ Silence ST-M BTO

**Powerful. Fanless.
Medical computer.**

The fanless **e-medic™ Silence ST-M** computers are high performance medical PC systems, which are ideally suited for the long-term use in hospitals and doctor's surgeries. The use of the modern Intel® Skylake platform guarantees a fast and extreme efficient system with an average of 30W. Powerful processors in combination with an especially developed 4 channel heat pipe provide high performance with lowest noise level. Functions like Bios MAC Address Display, iAMT (Intel® Active-Management-technology), TPM and Wake on LAN enable a high safety standard with remote maintenance and remote analysis possibilities.

Ideal for:

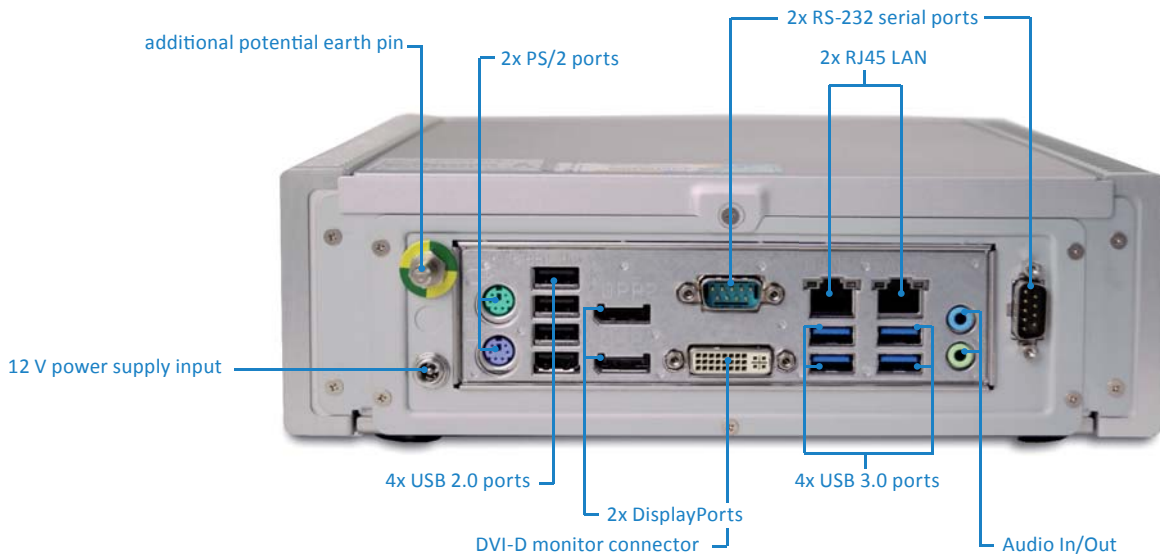

- Surgery/intensive care * * *
- Endoscopy * * *
- Diagnostics * * *
- Viewing * * *
- Patient environments * * *

Advantages:

- › Easy to clean – maintenance-free, closed casing
- › Triple View – 3 monitors can be connected
- › Versatile – installation possible on wall, VESA-mounting or support arms
- › Small, compact and lightweight (4 kg)
