1 POWER LEDs, 1000 Lumen  
aluminium die cast housing  
lens made of Polycarbonat  
extreme small profile  
waterproof housing  
12V-36V  
including cable 0,5m open end or  
cable 0,2m + AMP SUPER SEAL  
connector or  
cable 0,2m + DEUTSCH DT connector  
ADR-approved, IP6K9K

### Description

### Tags

Small but mighty – the PRO-MINI-ROCK LED work light scores highly in many respects. On the one hand, the very small, compact aluminium injection moulded housing means that you can install it anywhere. On the other, the single POWER LED manages to throw out 1,000 lumen. And all this from just 11 watts of power. This low consumption remains constant regardless of whether the light is running at 12 or 24 volts. High-pressure and steam cleaning cannot damage the PRO-MINI-ROCK work light. Its IP6K9K rating does not allow either dust or moisture to penetrate. Don't be fooled by the "mini", it's actually a powerhouse. Caution: When used for a prolonged period the housing can heat up to around 70° Celsius.

#### Specification:

Length (mm)	60
Width (mm)	50
Height (mm)	60.4
Weight: (kg)	0.2
Voltage	12-36 Volt
Manufacturer	Universal
